PETITION

This PETITION is being circulated as a means of securing the necessary funds to rehabilitate the Cape May Branch for the restoration of passenger rail excursion services by Cape May Seashore Lines from Richland to Cape May City, NJ.

Please sign this PETITION below if you support the rehabilitation of the Cape May Branch and the restoration of passenger rail excursion services from Richland to Cape May City, NJ.

Thank you for your cooperation, interest and support. It is appreciated.

We, the undersigned, hereby support Cape May Seashore Lines' current passenger rail excursion services between Richland and Tuckahoe; and hereby support the extension of these services to Cape May City, NJ. We further request that the State of New Jersey, the New Jersey Department of Transportation, NJ Transit, or other appropriate Federal or State Agencies, commit to a capital program that would rehabilitate the Cape May Branch to a "state of good repair." This request for funding is not for operating subsidies, but solely for improvements to the infrastructure / rail line. This public / private partnership will provide for the restoration of the Cape May Branch for Cape May Seashore Lines trains, thus allowing this valuable and vital regional tourism asset to become a reality. Signed,
